Whether you are a seasoned video conference attendee or a beginner, here is a list of meeting do's and don'ts to keep in mind:

- **DO:** Keep your microphone on mute if you are not actively engaged in a conversation. Be aware of your microphone settings, as you do not want to start a monologue while on mute.
- **DO:** Position your camera at eye-level and on the monitor that you are using for the conference.
- **DON'T:** Interrupt other speakers while they are presenting. If you have a question that cannot wait, type it in the chat window so that it can be addressed later and/or "raise your hand" using the WebEx function. If you are calling in on the phone, please text Memo or Quinn your name if you have a question.
- **DON'T:** Call into the meeting on both your phone and video conference. This will cause a loud echo and will interfere with the meeting.

Public Comments will be allowed at the end, and notice will be given when the floor is open for public comments.

Contact Numbers to Text During Meetings with a Comment/Question:
